We recognize that there has been concerning news regarding the spread of the Novel Coronavirus COVID-19 in the United States and throughout the world. The health and safety of Corpsmembers has always been our highest priority. Accordingly, RMYC is taking proactive steps in response to the coronavirus pandemic to protect Corpsmembers and our staff.

We have implemented several internal policies to minimize the risk of exposure to Corpsmembers, staff and the community as we move forward with our programming.

We want you to know that:

• We are paying very close attention to this situation.
• The health of our members, staff and community is our paramount concern.
• We have a team constantly monitoring the situation and creating contingencies to meet the challenge.
• At this time, RMYC is postponing the start of our Conservation Programming in our effort to protect the health and welfare of Corpsmembers, staff, and the community. We are taking this step to stay ahead of any mandates and flatten the curve in the spread of the Coronavirus. We will notify Corpsmembers immediately as circumstances change. Our current scheduled start dates are as follows:

  • Spring Crews: June 29th – December 11th (or TBD)
  • Fall Crews: September 7th - December 11th
  • Summer Crews have been cancelled.

• All staff and interns are working from home to continue our service to the community and are proceeding with extreme caution with regard to our interaction with each other and the public. Our facilities will be closed until further notice. You can still reach any staff member via email or our office numbers: Taos- (575) 751-1420 and Albuquerque- (505) 263-7585

• We encourage you to not to delay your application for our programs that interest you. We expect to be running our crews and internships effectively and successfully as soon as possible. Should you apply successfully and later on feel that you are not yet ready to join our program, there is no cost or penalty to withdraw.

We are in contact with our project partners and are prepared to make any adjustments to our training curriculum and work schedule that may become necessary as the issues develop.

We are following the evolution of the pandemic in real time and are prepared to take whatever precautions are necessary to protect the health and safety of Corpsmembers, staff, and the community.

WORK SAFE – TAKE PRIDE – MAKE A DIFFERENCE
