

**We recognize that there has been concerning news regarding the spread of the Novel Coronavirus COVID-19 in the United States and throughout the world. The health and safety of Corpsmembers has always been our highest priority. Accordingly, RMYC is taking proactive steps in response to the coronavirus pandemic to protect Corpsmembers and our staff.**

## COVID-19 Response - May 2021

We recognize that COVID-19 is still a serious threat to the health and safety of Corpsmembers, staff and community. We are encouraged with the availability of vaccines but we are still taking this global pandemic very seriously. As we learn more everyday about the virus and the guidance from the Center for Disease Control, we are updating our protocols and policies regularly.

As we prepare for the 2021 field season we are still maintaining a conservative approach to our programming to prioritize health and safety. We have resumed our in-person programming with both Conservation and Canine Crew programs, but maintain strict requirements with PPE, social distancing, contact tracing, daily wellness checks and sanitation requirements.

**We are following the evolution of the pandemic in real time and are prepared to take whatever precautions are necessary to protect the health and safety of Corpsmembers, staff, and the community.**

**WORK SAFE - TAKE PRIDE - MAKE A DIFFERENCE**
